White — Apoplanesia paniculata. Evgn Brazilian tree bearing lots of fls. 2-3'
Purple — Bauhinia variegata. Spring-blooming orchid tree. Crating cost included.
- Club C — \$5 — Another Five Flowering Trees. Different and also worth while. Crate cost included.
Red — Wrightia coccinea. Evgn Indian tree with dark crimson allamanda-like fls. 3'
Yellow — Cassia sp. Many lovely items in this genus. Will give you a good one. 2'
Pink — Triplaris surinamensis. Only female has pretty fls. Add \$1 for an extra.
Purple — Bauhinia purpurea. November blooming orchid tree, dark purple. 15"
White — Tabebuia sp. These were raised from seed of tree having pure wh fls. 15"
- Club D — \$10 — Rare and Better Flowering Trees. Crating cost included.
Red — Stenocarpus sinuatus. Queensland FIREWHEEL tree, Evgn, bright orange fls 8"
Yellow — SILVER TRUMPETTREE (Tabebuia argentea). Clouds of gold fls in Mar. 8-15"
White — EVERGREEN HAZEL (Guevina avellana). Among showiest of all trees. 8-12"
Pink — Aesculus indica. INDIAN HORSECHESTNUT. Crimson-tipped pink fls. 12-15"
Purple — QUEEN'S Crape Myrtle (Lagerstroemia speciosa) Famed for beau mauve fls 15"
- Club E — \$10 — More Gorgeous Flowering Trees. Crating cost included
Red — Chilean FIRE TREE (Embothrium coccineum). Among world's showiest Evgn 12"
Yellow — GOLDEN SHOWER (Cassia fistula) Famed Indian tree, thrives in Fla. 15-18"
White — GOLD SPIRE AZARA (A. integrifolia). Lovely hardy tree from Chile. Evgn 15"
Pink — PINK & WHITE SHOWER (Cassia nodosa). Finest of pink fld Cassias. 12-18"
Purple — PURPLE TRUMPET (Tabebuia No. 1076). Gets covered purple fls in Mar. 18"
- Club F — \$5 — Three of the most beautiful of evergreen vines. All in demand. Crate cost included.
Red — Combretum grandiflora. Great comb-like trusses of red fls. Full sun. 12"
Blue — Petrea volubilis. PURPLEWREATH. Many 2-blued fls like grape clusters. 12"
Purple — PURPLE BIGNON (Clytostoma calistigeoides). 4-inch mauve trumpet fls. 15"
- Club G — \$5 — Fruit Trees either unusual or rare. Worth cultivating in any yard. Crate cost incl.
AKEE (Blighia sapida). Evgn tree bearing bright red fruits like xmas ornaments. 2'
OCHROSIA (O. elliptica). New Caledonian evgn salt-resistant, red-fruited tree. 8"
QUEENSLAND NUT (Macadamia ternifolia). Evgn street tree, fine tasty nuts. 8-12"
SHOWY DILLENIA (D. indica). Small Indian tree, large white magnolia-like fls. 2'
- Club H — \$10 — Shrubs (11 of them) that you will be sure to want in your garden. Crate cost incl.
CURRY TREE (Murraya koenigi). Indian white-fld tree with highly aromatic lvs. 12"
PINK CALLIANDRA (C. surinamensis). Pink-tipped white fls all year, spreading 12"
RED CALLIANDRA (C. haematocephala). Red-head, showiest thing in your yard. 8"
CERISE CALLIANDRA (C. emarginata). Lots of smaller purple-red fls. Honduras. 8"
LADY OF THE NIGHT (Brunfelsia americana). Exceedingly frag white fls. Evgn. 15"
DWARF POINCIANA (Caesalpinia pulcherrima). Valued for showy red-&-yellow fls. 2'
PURPLE ARDISIA (A. crenulata). Dense evgn shrub, purple berries. Good filler. 12"
POTHOS — Will make vine on tree with huge striped leaves. Showy ornamental. 12"
PURPLE Crape Myrtle (Lagerstroemia indica). Among finest of summer flowerers. 18"
WEST INDIAN CHERRY (Malpighia punicifolia). Large evgn shrub, quantities red ft. 2'
RED BAUHINIA (B. galpini). Rare So African scandent shrub, brick red fls. Fine. 6"

BIGGEST BARGAIN OF ALL — 43 Plants (all those listed above including an extra Triplaris) crated and ready to ship to you, F.O.B. Stuart \$50.00.
(No crating allowance if you call)

UNUSUALLY FINE HALF-HARDY TREES FOR NORTH AND CENTRAL FLORIDA, AS WELL AS FOR SOUTH FLORIDA.

Azara integrifolia. GOLDSPIRE AZARA. Small tree from Chile, reaching 15-18 ft. Bears deliciously fragrant small yellow flowers in great masses on the lower side of the spreading branches. Blooms all winter. Rare in Florida and should be fine garden subject. 12" gal can \$2.50.

Azara gilliesii. This splendid 15-ft small tree from Chile would hardly be recognized as an Azara. In early Spring it bears showy golden flowers in drooping 2-inch racemes. Foliage very pleasing and hollylike. New this year. Never offered before in Florida. 8 - 12". gal can \$4.

FLAMING BOTTLEBRUSH (Callistemon citrinus splendens). First offered in England, this is one of the most vividly colored bottlebrushes you have ever seen. The plant is a heavy bloomer of compact habit. Does well with little water. 12-inch. \$2.50. gal can 24-inch \$5.

LILY-OF-THE-VALLEY CLETHRA (C. arborea). Too bad this beautiful little plant isn't hardier. It stands 25 deg. okay but that is about the limit. It is a vigorous large shrub of quick growth to 20 ft. Pure white, richly frag fls in terminal clusters have strong resemblance to Lily-of-the-Valley. Needs acid soil. 8 - 12" gal can \$2.50.

CHILEAN FIREBUSH (Embothrium coccineum). Tall, slender, pyramidal evgn tree requiring half shade, acid soil. In April it bears profusion of brilliant orange scarlet fls in terminal clusters. In full bloom it appears aflame. This is one of the showiest flowering trees known. 1' gal can \$4.

TASMANIAN EUCRYPHIA (E. billardieri) Eucryphas are among the supremely beautiful plants that no grower of the best can afford to overlook. This is a small tree, bearing white, 2-inch almond-scented fls, saucer shaped, filled with pink anthers, resembling single roses. 8-12" gal can \$2.50.

EVERGREEN HAZEL (Guevina avellana). This Chilean tree is described as one of the most beautiful of all trees, with snowy-white fls in spikes, and pinnate lvs with dentate leaflets. Closely related to the Queensland nut (Macadamia ternifolia) it is offered in Florida for first time. Should make exceedingly fine street and yard tree. Resents root disturbance. 8-12" gal can \$4.

TREE POTATO (Solanum rantonetti). Here is a potato relative that makes large shrub or splendid little tree with lovely blue flowers. Unlike S. macranthum which is the potato tree sometimes seen in So. Fla. but too soft for our winds, this new tree is woody. Much planted in Calif. and should take hold in So. Fla. Plant can be espaliered but best as tree. 18" gal can \$5.
